

A black and white line drawing of a space scene. In the center, a rocket ship is launching upwards, leaving a large, billowing cloud of smoke and fire at its base. To the left of the rocket is a crescent moon with a smiling face and closed eyes. To the right is a planet with horizontal stripes and a ring system, similar to Saturn. Below the rocket are two more planets: one with horizontal stripes on the left and one with craters on the right. The background is filled with numerous stars of different sizes, some with motion lines, and small circles representing distant galaxies or stars. The entire scene is framed by a simple black border.
